BON SECOURS MEMORIAL COLLEGE OF NURSING

Good Help to Those in Need®

BON SECOURS MEMORIAL COLLEGE OF NURSING

Our Innovative Approach

So you've decided on a rewarding and challenging career as a registered nurse. Now, it's time to choose the best nursing school. Welcome to Bon Secours Memorial College of Nursing! Our Bachelor of Science in Nursing degree will provide the training you need to serve the needs of patients in a wide variety of settings.

Not only that, but we aim to instill in you the qualities of a servant leader and a lifelong learner. As we grow to become a center of educational excellence for the entire Bon Secours Health System, the College is committed to staying abreast of the latest research and technology to ensure your education is "world class"!

The college has been educating nurses for 50 years. More than 2,000 graduates have received an excellent nursing education at Bon Secours.

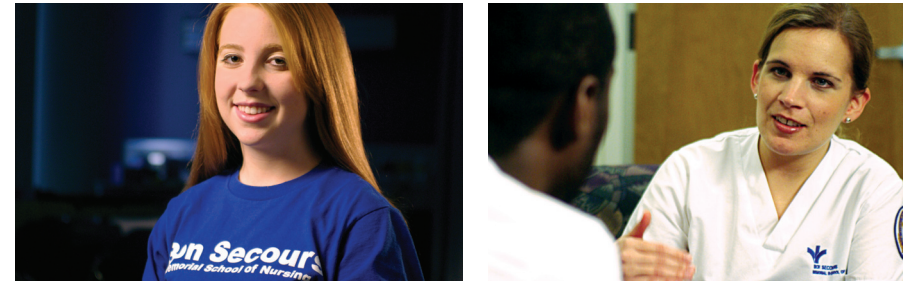

Nursing lectures, which begin within the first year, are taken along with general education courses. And you will gain excellent hands-on experience by caring for patients in our award-winning, faith-based Bon Secours facilities.

Stimulating coursework, clinicals and labs will prepare you to succeed in today's complex healthcare environment, rendering state-of-the-art care while honoring a patient's cultural and spiritual perspective.

After completing your degree, you will be eligible to take the National Council Licensure Examination for Registered Nurses (NCLEX-RN).

Our Faith-Based Values

Our college is highly unique. As part of the larger, faith-based Bon Secours Virginia Health System, you will have the rare opportunity

to participate in caring for the community beyond the walls of our facilities. Our Student Government Organization sponsors annual international mission trips and participates in community service activities throughout the year.

Our Award-Winning Hospitals

As a student, you will have ample opportunity to serve alongside our dedicated and experienced nurses and physicians in our Bon Secours hospitals. Help a college athlete heal from knee surgery and return to a winning season; enter the journey of childbirth with an anxious first-time mother; take time to connect with a patient in our behavioral health unit; or join the fast-paced setting of our emergency rooms.

Our Intimate Clinical Classes

Our clinical groups are small so that our faculty will get to know you personally. We think that's important, and so do our students. Whether you are trying to grasp a new concept or master a clinical skill, you will receive the individualized attention you need.

In addition, you'll form friendships that will last a lifetime. Our diverse student body is working toward the same goal: to become a registered nurse. Whether you are a recent high school or college graduate, a professional choosing a second career, a parent re-entering the workforce or a military veteran, you will join other students embarking on the same journey.

Our Financial Aid Programs

A variety of financial aid programs are available to assist you with your educational expenses. These programs include: Federal Pell Grants, Federal Supplemental Educational Opportunity Grants, Federal Work Study, Stafford Loans, Scholarships, Veterans' Educational Benefits, credit-based alternative loans and the Bon Secours Student Loan Payback Program. Once you are accepted into our program, you will have the opportunity to discuss these options with a Financial Aid Specialist.

Our Focus Is on Your Success

Your success is very important to us. We have a full range of professionals here to support you. From academic advisors and peer tutors to nurse mentors and a dedicated career counselor, we will support you throughout your nursing studies.

Ask us about a summer externship or our innovative "early acceptance" program for employment in one of our hospitals. We have a proven track record of placing our students into meaningful nursing positions following graduation.

The Right Time to Consider Us Is Now!

Our student cares for a family in the Dominican Republic during a medical mission trip.

A smile from Haiti, where our student cares for an infant.
