The purpose of this policy is to provide timely and appropriate notification in compliance with state and federal legislation, regarding sex offenders on campus. Specific details of any notification will be determined on a case-by-case basis.

The Campus Sex Crimes Prevention Act (section 1601) U.S. C., 1407 I j and 20 U.S.C. 1092 (f) (1) (1) is a federal law enacted on October 29, 2000. This law provides for the tracking of convicted sex offenders enrolled at or employed by the institutions of higher education.

The federal Campus Sex Crimes Prevention Act (CSCPA) requires institutions of higher education to issue a statement advising the campus community where law enforcement agency information provided by a State, concerning registered sex offenders, may be obtained. It also mandates that sex offenders, already required to register in a state, provide notice, as required under State law to each institution of higher education in that state at which the person is employed, carries on a vocation, volunteer's services or is a student. States are under an obligation to advise registrants of these requirements and establish procedures to do so. States are also obligated to notify institutions if a registered sex offender is employed, carries on a vocation, volunteer's services or is a student.

The Commonwealth of Virginia's State Police maintains a system for making certain Registry information on possessors of child pornography, sex offenders, violent sex offenders and persons convicted of murdering a minor child publicly available by means of the Internet. The information made available includes the offender's name; all aliases that he/she has used or under which he may have been known; the date and locality of the conviction and a brief description of the offense; his/her date of birth, current address and photograph; and such other information as the State Police may from time to time determine is necessary to preserve public safety. This updated information is routinely checked via the campus student, staff and vendor databases.
